## Summary of Work at Core Logic

**12/2010-04/2011**

As a Business Analyst at **Core Logic** (formerly First American Default Corporation), analyzed a bank's mortgage products (Loss Mitigation, Foreclosure, Bankruptcy and Debt Collection) and provided technical specifications to off-shore programming team (India). Worked with off-shore programming team in India on Mortgage products (Loss Mitigation, Foreclosure, Bankruptcy). This was a contract position through **Innovative Employee Solutions**.

### Borrower Portal Presentation

Created screen designs for various new website pages through analysis of the bank's mortgage products (Loss Mitigation, Foreclosure, Bankruptcy and Debt Collection); then provided technical specifications to off-shore team in India to accomplish the programming (**Word, Visio**).

### Data Export Project

Designed project to Export customer data from a SQL database to an FTP site. They could then run their own reports against that data (**Visio**).

### Business Rule Analysis

Created Business Rules by analysis of many different websites (**Excel**).

### Excel

Created various in-house tools (**Excel, VBA**).
